

LINEAR REGRESSION EQUATION

$$\text{TI ICP-MS, in } \mu\text{g/L} = .011 + .873 * \text{TI clCP-MS, in } \mu\text{g/L}; R^2 = 1$$

Confidence Intervals  
TI ICP-MS, in µg/L vs. TI clCP-MS, in µg/L

	Coefficient	95% Lower	95% Upper
Intercept	.011	-.035	.057
TI clCP-MS, in µg/L	.873	.870	.875
